Agribusiness at Tarleton State University

As a member of the Texas A&M University System, Tarleton has a heritage of commitment and service to agriculture. The department emphasizes the personal bond between student and teacher developed through classes, internship, career preparation, personalized advising, and mentoring. The faculty are dedicated to your academic and professional needs.

At Tarleton State University, we are proud of our traditions of friendliness and of treating students with respect and individual attention. Through personalized counseling, we encourage you to identify your preferences in choosing a degree that will prepare you professionally and challenge you academically.

Agribusiness Degree Concentrations

-Agribusiness Management-

The agribusiness management track includes courses that prepare students for entry-level positions such as retail/wholesale sectors of agribusiness or the businesses and agencies supporting the agricultural industry.

-Personal/Business Financial Planning-

The newest concentration is Personal/Business Financial Planning—to better meet the needs and interests of students. A career as a financial planner is listed as one of the twenty hottest professions. The need for personal and small business financial planning expertise is greater than ever, for many often neglect personal and family financial planning.

-Agricultural Economics-

The agricultural economics track includes courses designed to prepare students for a career in the analytical or research sectors of production, marketing, or finance. It also is the preferred track for students preparing for graduate study.

-Dairy Business Management-

The dairy business management track is industry-designed for students who plan a career in the sector of dairy operations and supporting infrastructure including input
